Washington, DC - Maryland - Northern Virginia | Local & Regional Mid-Atlantic Service

MASTER CAPABILITY STATEMENT

Reliable commercial transportation, dedicated routes, final-mile delivery, store transfers, and specialized B2B logistics.

Company Overview

Premium Transportation LLC provides professional local and regional transportation throughout the DMV and Mid-Atlantic. We support recurring routes, scheduled distribution, urgent same-day deliveries, multi-stop runs, warehouse transfers, jobsite deliveries, retail replenishment, and specialized commercial freight. Our fleet is suited for both palletized freight and smaller time-sensitive shipments, giving customers one transportation partner for multiple delivery profiles.

26-FT BOX TRUCK

Liftgate equipped

Palletized freight, bulk commercial deliveries, multi-stop routes, furniture, building materials, warehouse and store transfers.

MERCEDES-BENZ SPRINTER 2500

High Roof - 170 WB

Fast commercial delivery for cartons, parts, medical supplies, printing, route replenishment, urgent and regional freight.

SERVICE MODEL

Local DMV coverage plus regional Mid-Atlantic service. Dedicated morning, afternoon, evening/night, recurring and project-based routes available.

CUSTOMER EXPERIENCE

Uniformed staff, professional handling, live GPS visibility, documented delivery activity, and responsive communication.

Core Capabilities

- Dedicated and recurring route transportation
- Same-day, scheduled, expedited, and final-mile commercial delivery
- Multi-stop distribution, route replenishment, warehouse transfers, and store-to-store transfers
- Liftgate delivery, pallet handling, driver assist, inside delivery, and two-person service when arranged
- Local DMV and regional Mid-Atlantic transportation
- Proof-of-delivery support and live GPS shipment visibility

Washington, DC - Maryland - Northern Virginia | Local & Regional Mid-Atlantic Service

WHY PREMIUM TRANSPORTATION

A flexible transportation partner for companies that need reliable capacity without adding fleet overhead.

Service Differentiators

- Two vehicle classes allow customers to match capacity to shipment size instead of overpaying for unnecessary equipment.
- Liftgate and pallet-jack capability supports facilities without loading docks and improves flexibility at job sites and customer locations.
- Samsara live GPS tracking provides shipment visibility for dispatchers, customers, and operations teams.
- Four-way dash camera recording supports driver accountability, safety documentation, and incident review.
- Uniformed personnel provide a professional appearance for customer-facing and white-glove-adjacent delivery environments.
- Medical-related training supports customers that require stronger handling discipline, confidentiality awareness, and documented procedures.
- Dedicated-route capability supports recurring morning, afternoon, evening/night, multi-stop, and scheduled replenishment work.
- Local DMV knowledge plus regional Mid-Atlantic capability supports both dense urban routes and longer regional lanes.

Typical Engagements

DEDICATED ROUTES

Recurring daily or multi-day transportation with defined pickup windows, stops, service standards, and route expectations.

FINAL-MILE / JOBSITE

Liftgate-enabled delivery to offices, retail locations, jobsites, warehouses, restaurants, medical facilities, and customer locations.

STORE & WAREHOUSE TRANSFERS

Inventory balancing, replenishment, inter-store transfers, warehouse-to-store moves, and overflow transportation.

EXPEDITED / SAME-DAY

Time-sensitive local and regional shipments when customers need faster response than standard scheduled distribution.

Commercial Approach

We can quote by dedicated route, project, stop, mileage, time, or a customized recurring service structure. Pricing is based on vehicle class, mileage, stops, freight profile, weight, handling, service windows, labor, access conditions, and committed volume. All freight is subject to vehicle payload, axle, dimensional, and legal operating limits.
